

Mille Lacs District 2 Health Clinic

Onamia, MN

Integrity Built

Loeffler provided Seven Generations Architecture & Engineering with a Schematic Design estimate on a new Health Clinic for the Mille Lacs Band of Ojibwe. With just over 10,000 square feet, the clinic includes traditional healing, behavioral health, and dentistry services.

The unique architecture of the building consists of a steel frame with a variety of exterior façade materials including composite metal panels, stone, curtainwall, and exposes steel framing. Inside the clinic is finished with high end finishes, fixtures, and furniture.

High efficiency mechanical and electrical systems were incorporated into the building's design.

Client - Seven Generations Architecture & Engineering

Construction Cost - \$3.5 Million

Project Size - 10,294 SF

Loeffler Role - Cost Consultant
