

Keller Hall 3-230

Minneapolis, MN

Integrity Built

This Keller Hall Room 3-230 Auditorium remodel project included renovation of 1,859 square feet of existing classroom teaching space. The scope of work completed during this 5-week classroom remodel included replacement of existing fixed tables with new swing arm seating, new acoustical wall finishes, flooring and general accessibility improvements. The existing lighting was upgraded to energy efficient fixtures, and voice/data provisions were improved to facilitate virtual classroom capabilities.

Client - University of Minnesota

Architect - Studio Hive
