

Vincent and Keller Hall

Minneapolis, MN

Integrity Built

The Vincent and Keller Hall projects including the remodeling of multiple classroom and auditorium spaces in both the Vincent and Keller Buildings on the University of Minnesota Campus. Working with Studio Hive, Loeffler Construction & Consulting successfully completed the remodels both on schedule and on budget.

The scope of work for the remodels included replacement of existing windows, upgraded interior finishes in all spaces, the addition of fixed tables into several classrooms, upgraded flooring and general accessibility improvements. The existing light fixtures were also upgraded to higher efficiency fixtures and voice/data provisions were improved to better serve the spaces.

Client - University of Minnesota

Architect - Studio Hive

Construction Cost - \$600,000
